

RECIPE

MEXICAN STREET CORN

This may not sound traditional, but it makes the most delicious corn-on-the-cob I have ever tasted.

Prepare a spice mix, to taste, with these ingredients:

Garlic Powder

Chili Powder

Paprika

Salt

Pepper

Boil your corn-on-the-cob.

Instead of spreading butter on the corn, slather the cob with mayonnaise. Then sprinkle on some of the spice mix and enjoy. It is mouthwatering.

Another way to do this is to blend the spice mix into the mayonnaise ahead of time and then spread that onto the corn. Then, sprinkle lime and crumbly Mexican cheese over that, yummy either way.
